

A close-up photograph of a wooden table. The top surface is a smooth, light-colored wood with a visible grain pattern. The table has a rounded edge. Below the top, two wooden legs are visible, also with a light wood finish and grain. The background is a light, textured surface, possibly a wall or floor. The overall lighting is soft and natural.

SKEWED TABLES

This collection of sleek tables are skewed by design, and named for the carpentry technique that angles wood into such irregular shapes. The tables' skewed legs and free-flowing edges replace regularity with spontaneity, defying the uniformity typical of traditional furniture-making techniques. The tabletop for the side tables are made in standard sizes, but the surface of the dining table is proportioned to seat four diners. Every table leg is crafted individually to give each one a unique profile. The design reveals the appeal of organic shapes and their relevance to contemporary interiors. Designs like these interpret furniture as sculptural form, combining functionality with artistry and aesthetic expression.

「スキュード・テーブルズ」コレクションは、そのデザイン上の意図により「傾け(skewed)」られ、そして、材を不規則な角度に巧みに加工する木工技術にちなんで名付けられました。

傾斜を持った脚や各所に与えられた自由な角度は、「規則正しさ」に取って代わる「自然さ」を持ち合わせ、画一的な従来の家具製作への挑戦ともいうことができるでしょう。サイズバリエーションの豊富なサイドテーブルは、どれも同じ大きさ・かたちの天板を持ちながら、それぞれに個性的な表情の脚が組み合わさるユニークなデザイン。ダイニングテーブルは、数人でテーブルを囲んだ時に最適な心地よいアングルが与えられています。

有機的なフォルムに加え、コンテンポラリーな空間との相性の良さが魅力の「スキュード・テーブルズ」。機能性、審美性を組み合わせた彫刻的なオブジェクトとして空間におけるファニチャーを解釈する新しい提案です。

Side table

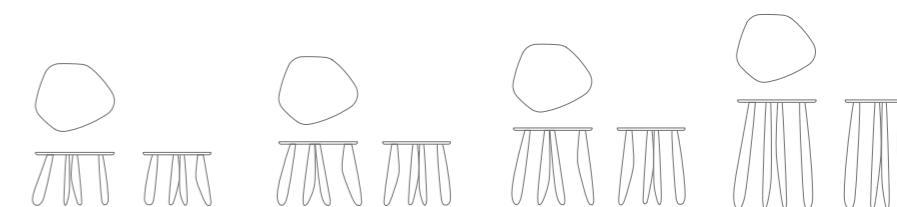

H350
Product code : SFM0301
Size : W520 D434 H350 mm

H420
Product code : SFM0302
Size : W520 D434 H420 mm
